

## ALM.090.300

### TOP-MOUNTED JOINT HORIZONTAL OUTLET 310°

ALM9010.300 Top-Mounted Joint Horizontal Outlet 310° is designed for situations where the connection point is high (machine top point, etc.) and allows the operator's arm to move on the horizontal axis. This module, which allows 320 ° movement to the right and left, is specially designed for heavily loaded configurations
